Portfolio-of-Md-Rakibul-Islam 💼

I'm a full-stack web developer with more than half year of experience. In web technology, I have advanced knowledge of **React.js** and **Node.js.** Last half year I created some unique projects with UX base functionality.

## SKILLS

- **Expertise:** React.js, JavaScript, ES6, HTML/CSS, Tailwind/Bootstrap, Daisy UI, Authentication.
- **Comfortable:** Node.js, Express.js, MongoDB, Rest API, Payment gateway (stripe).
- **Familiar:** TypeScript, Next.js, React Native.
- **Tools:** Firebase, Git/Github, VS Code, Chrome Dev Tools, Heroku, Figma, Canva.

## PROJECTS

### Hardware Tools (Full-Stack)　　　　Live Preview | Client Code | Server Code

- It's a tools manufacturer website. Authenticate user order tools maintain minimum quantity.
- Normal users can buy tools, and see orders and their profiles. Also can pay for orders by stripe.
- Admin can add tools, change shipment status, cancel orders and manage orders, and make a normal user to admin. That means a different dashboard for normal users and admins.

**Technology:** React, Tailwind, Firebase, Daisyui, React-query, React-hook-form, JWT, Stripe, etc.

### Bicycle Spot (Full-Stack)　　　　Live Preview | Client Code | Server Code

- Basically it's a warehouse management website. Users can do some activities for stocks.
- Verify users can restock quantity, deliver stock, manage stock, add stock and also delete stock.
- This website has six pages with authentication and functionality like users can add an item by filling up a stock details form, and also can see stock items (user order items) by login user.

**Technology:** Axios, Bootstrap, React-bootstrap, Firebase, React, React-router-dom, React-toasty etc.

### Capture Wild Nature (Front-end)　　　　Live Preview | Client Code

- Actually It's a front-end base website. In home page has a beautiful and unique design like the best capture section (i'ts image is dynamic).
- Authenticated users can buy services by clicking the buy button with filling up a simple form.
- Apply authentication systems like Google, Facebook, and Github.

**Technology:** react, react-router-dom, bootstrap, firebase, react-firebase-hooks, react-toastify etc.

## EDUCATION & COURSE

**HSC ( Higher Secondary School Certificate)**
**Sherpur Govt. College**
03 Apr 2018 to 15 May 2020
Subject: Science
GPA: 5.00

**Complete Web Development Course**
**Programming Hero**
Start 01 Jan 2022

## LANGUAGE

Bangla: Native
English: Fluent
